ABOUT THE EVENT

The **Asia-Pacific Hydrogen 2026 Summit & Exhibition** is the most anticipated hydrogen event in the region. This groundbreaking summit brings together **influential leaders** and visionaries from the hydrogen industry on a global scale, providing a unique platform for collaboration and innovation. Proudly partnered with the Australian Hydrogen Council, supported by the Australian Trade and Investment Commission and host state South Australian Government, this event is a nexus of cutting-edge discussions and impactful connections.

With an attendance of **2500+ global hydrogen enthusiasts** and experts, the 2-day event features a strategic summit, a dynamic exhibition area hosting over **100 exhibitors** showcasing the latest advancements, technologies and solutions in the world of hydrogen along with a H2 Tech Series programme offering insights into the latest tech and innovation driving the development of the industry.

Exhibitor and sponsorship packages at the Asia-Pacific Hydrogen Summit & Exhibition offer the opportunity to enhance visibility of your brand in front of key stakeholders and help establish new relationships within the industry.

“

Green Hydrogen remains in our plan in Oman....Central to that is the royal decree 10/2023 which delineates and gives decree to the Ministry of Energy and Minerals to access 65,000 square kilometres of land for renewable energy generation and green hydrogen projects. That legislation is the cornerstone of our ability to guarantee to investors long term ability to access to resources and build plans.

ASIA-PACIFIC HYDROGEN SUMMIT & EXHIBITION

“

Hydrogen is fundamental to decarbonisation, as the energy transition takes place we have a clearer picture of the targeted role it will play in a net zero economy, especially in hard to abate sectors like mining, agriculture, manufacturing, aviation and heavy transport.
