HYDROGEN AMERICAS 2025

SUMMIT & EXHIBITION

3 - 4 SEPTEMBER 2025

**GAYLORD NATIONAL RESORT &
CONVENTION CENTER, WASHINGTON D.C.**

THE HUB FOR THE GLOBAL HYDROGEN & ENERGY COMMUNITY IN THE AMERICAS

Having established itself as the premier gathering for the global hydrogen & energy community in the Americas region, the **Hydrogen Americas Summit & Exhibition** returns to Washington D.C. on 3-4 September 2025. The event will be hosted at the iconic Gaylord National Resort and Convention Center, featuring a renowned strategic summit, the popular Tech Series stage, and a product showcase arena highlighting the latest advancements in hydrogen technologies, energy solutions, storage applications and CCUS.

Under the theme “Defining Hydrogen’s Role in Americas’ New Energy Landscape” this edition will examine the ever changing energy mix and how hydrogen, CCS and renewables must work in concert with nuclear, geothermal, gas, & LNG to achieve a secure, reliable and sustainable energy system. Bringing together industry leaders, investors, policymakers, and technology providers, the Hydrogen Americas Summit & Exhibition is the premier forum to share the latest insights and forge critical partnerships to enable clean energy projects across the Americas continent.

Register your place today to connect with new business partners and make your project a reality.

VIDEO HIGHLIGHTS

“This was the best hydrogen-focused conference of the 15+ I’ve attended over the past several years.”

EXPLORING STRATEGIES & PARTNERSHIPS FOR THE AMERICAS

THE SUMMIT

The Hydrogen Americas Summit is renowned for hosting the most senior leaders defining the hydrogen & energy solutions industry today. With a speaker lineup packed with key industry leaders and policymakers from across the U.S. and the Americas, the Summit is the platform to address key questions at the highest level and where hydrogen & energy solution developers can grasp the impact of the latest policies to ensure the most effective deployment for successful projects.

“I find that any good conference does a few things, it provides inspiration because you see others that are doing better than you that you can be inspired from, it provides networking, people you can learn from going forward, and it provides a cohort which is going to give you an ongoing learning opportunity, and from the people that I’ve met here today it seems that this conference is hitting all 3 of those marks really well.”

MICHAEL HECHT

President and CEO

Greater New Orleans Inc

KEY THEMES INCLUDE:

- The next phase of H2 Hub development across the Americas continent
- Navigating regulatory uncertainty in the US and abroad
- Infrastructure development and H2 integration with existing energy systems
- How to meet the growing energy demand of expanding industries
- Maximising hydrogen’s benefits for a secure and reliable energy system
- Latest low carbon technology advancements and cost reductions
- Financing and investments to scale up the hydrogen industry

TESTIMONIALS FROM ATTENDEES

“

“This is always a great event and I’m so appreciative for the Sustainable Energy Council and for all the folks who have helped make this event a success year after year. It’s such an important opportunity for us to celebrate the achievements that we’ve had but also to continue to look forward on opportunities to build new partnerships and to develop further strategies to advance clean hydrogen. I always leave here learning something and I know that folks who participate year after year agree with that.”

JEFF MAROOTIAN

Office of Energy Efficiency and Renewable Energy
U.S. Department of Energy

“

“It’s attracting a large number of people, you come to this conference and you’re able to meet a lot of people and a lot of companies throughout the value chain all at once. So there’s a nice variety of the sessions in terms of discussion about policy, discussion about different technologies, discussion about both producing OEMs and uses. So nice variety there and the of course the networking opportunity is excellent, there’s large number of people from different experiences, different industries, and so it’s a really great value in that respect.”

STEVEN PARENTE

Hydrogen Infrastructure and Integration Specialist
Caterpillar

“

“Hydrogen Americas is a terrific event because it truly does bring all the stakeholders together that we need. As an environmental NGO working on climate change, we feel like we have an important seat at the table here at this event and we’ve really been welcomed in, and there’s a lot of interest in understanding the science and how we can get hydrogen right based on that science. It’s an honour to be here working with companies, with policy makers on finding these solutions. This is the moment for us all to come together and figure out how to get hydrogen right.”

BETH TRASK

Vice President, Global Energy Transition
Environmental Defense Fund

“It has been great, great conversations, good engagement, a lot of interactions with different stakeholders, research firms, offtakers, EPCs, OEMs, developers, so very engaging. I met new people, which I think is critical to understand where we can act more in the industry outside of our current activities, so the networking piece was very fruitful here. It’s particularly the mix of stakeholders here because it’s in D.C., so we have a lot of government input, research firms, plus the developers and all the value chain suppliers, and it’s a good mix to learn but also engage.”

LAURA BERGEDIECK

Senior Vice President for
Hydrogen Development
RWE Clean Energy

”

SHOWCASE YOUR SOLUTIONS TO KEY DECISION MAKERS

THE EXHIBITION

The Hydrogen Americas Exhibition unites leading hydrogen & energy solutions stakeholders to meet technology manufacturers, private sector leaders, policy makers and innovators contributing to hydrogen and energy solutions` critical implementation. Showcase your latest innovative products for an opportunity to discuss, collaborate, and do business with investors looking to drive the industry forward.

“From my perspective, this was one of the best hydrogen exhibitions I’ve attended.”

WHY SHOWCASE?

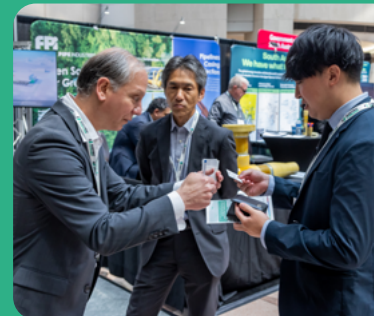

- ✓ Highlight your products and services to buyers and partners
- ✓ A cost and time effective way to discover new business opportunities
- ✓ Position your brand as a leader in the hydrogen and energy markets
- ✓ Generate new leads for your company in a highly targeted environment
- ✓ Host meetings and secure business deals right on your stand

PIPE & DRAPE STAND

- 10x10sq ft pipe & drape stand
- Carpeted flooring
- Table & chairs
- Electricity socket & lights
- Waste bin
- Free of charge visitor passes Access to the H2 Tech Series
- Discounts available to access the Summit Sessions

SPACE ONLY STAND

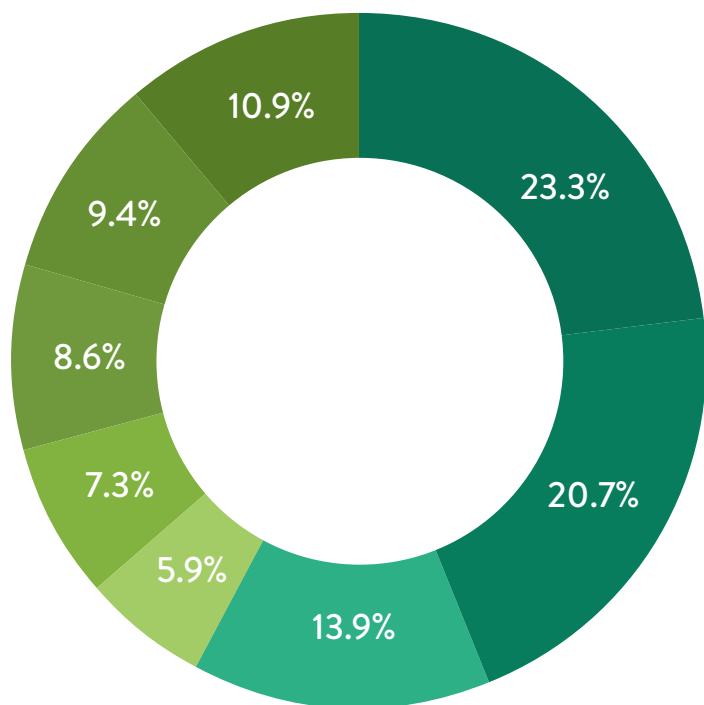

- Assistance from our dedicated exhibitions team
- You design and build your stand to your specifications
- Additional furniture and media devices available (at a discount)
- Free of charge visitor passes
- Access to the H2 Tech Series
- Discounts available to access the Summit Sessions

- 91%** OF PARTICIPANTS WOULD ATTEND RX HYDROGEN SERIES OF EVENTS
- 87%** OF PARTICIPANTS WOULD RECOMMEND THE EVENT TO A COLLEAGUE

JOB TITLES

TESTIMONIALS FROM EXHIBITORS

“We’re back here again this year because we had a really good experience in our first year, we want to show all our allies in the U.S. that we’re in a leadership position in renewable energy and clean hydrogen production in Australia. We’ve been very impressed actually with the broad scope of the people that have been here, we’ve had many enquiries from not only equipment suppliers but also project developers, so investors and proponents alike.”

CHRIS WOOD

Executive Director of Invest SA
Department for Trade and Investment
Government of South Australia

“It’s a great place to meet people that have similar interests and looking to resolve solutions that hopefully resolve problems with the solutions that we can hopefully provide. Over the years we get to meet more and more people, always great to see them and make new connections, and really it accelerates business development within two days which would take us over 6 months on the road just to try to meet all those people. Very efficient and a very great environment to do so.”

PIERRE POULAIN

President and CEO
Powertech Labs

“The Hydrogen Americas Summit is very important for us to attend every year because of the footprint that we have in the U.S. when it comes to hydrogen plans, and the impact that we think that we can have on helping the U.S. to achieve their climate goals. We come here to interact with potential partners, potential customers, and enable decarbonization as much as we can for the U.S. We had a lot of traffic come to our booth and so I think we had a lot of productive conversations, we collected a lot of new contacts and we hope to follow up on that after the conference.”

MAKINI BYRON

Director, Clean Energy Business Development
Linde

“Our experience here has been great, we were here last year, we got the exact same booth, the exact same location, we have the same next door neighbors, it’s been really great. The volume of people yesterday all the way through the day was great. I’ve met people from the DOE, I’ve met people that are startups, I’ve met some companies that are huge in the industry, so this has been really really good. This is what brought HSB back this year is we had such a great turnout last year and got some good leads, and let’s face it once the money starts flowing, business for everyone will be great.”

GEORGE DRAKE

Global Project Manager
Hartford Steam Boiler

GET ACCESS TO EXPERT INSIGHTS FROM ACROSS AMERICAS

THE TECH SERIES STAGE

Join us on the Exhibition floor for the popular Tech Stage presentations where you can hear directly from industry experts sharing the latest technology developments in hydrogen, energy, and storage solutions. These free to attend sessions are uniquely placed to expand your understanding of the current products and services available to the industry and facilitate the immediate networking with these leading exhibiting companies.

“Very well managed enjoyed the technical sessions at the exhibition.”

WHY YOU SHOULD VISIT THE EXHIBITION & H2 TECH SERIES:

- ✓ Hear directly from industry experts, on the Exhibition floor
- ✓ Explore a wide range of topics to enhance your industry knowledge
- ✓ Grasp the latest cleantech developments for your business
- ✓ Meet with technology manufacturers presenting their latest solutions
- ✓ Ask your questions and understand the future of low carbon applications
- ✓ Get unique access to high-level industry insights free of charge
- ✓ Expand your network and kickstart your industry collaboration
- ✓ Secure deals and do business with key speakers at their Exhibition stands

WHY SPONSOR HYDROGEN AMERICAS 2025?

- ✓ Reinforce your commitment to the industry
- ✓ Position your company as a thought-leader in the market
- ✓ Showcase your company's latest products and solutions
- ✓ Generate new business leads and contacts
- ✓ Get prime exposure to senior decision makers and Government officials

LET US HELP YOU CEMENT YOUR BRAND AS A PIONEER OF THE EMERGING GLOBAL HYDROGEN INDUSTRY.
