DRIVING HYDROGEN & CCUS PROGRESS ACROSS THE AMERICAS

Having established itself as the premier gathering for the global hydrogen & CCUS community in the Americas region, the Hydrogen Americas Summit & Exhibition will be in Houston on 6-7 October 2026. The event will be hosted at The George R. Brown Convention Center, located in the heart of Houston's vibrant city center, offers attendees the unique advantage of being at the epicenter of the Americas' energy market. Featuring a renowned strategic summit, and a product showcase arena. Hydrogen Americas together with CCUS Americas 2026 builds on our position both in the Americas market and global stage with our trusted events, connecting you directly with the decision-makers shaping hydrogen and CCUS projects across the region.

Hydrogen Americas 2026 Summit & Exhibition brings a broader global perspective to the region, drawing participation from key hydrogen and CCUS markets such as Canada, Brazil, and Chile, alongside influential delegations from Europe and Asia. This diverse international presence strengthens the event's role as a cross-regional connector, enabling attendees to engage with global policy trends, emerging technologies, and investment opportunities. By convening leaders from across the world, the summit supports meaningful collaboration that accelerates project development and advances the hydrogen and CCUS ecosystem throughout the Americas.

Register your place today to connect with new business partners and exchange the latest insights to make your hydrogen project a reality.

Hydrogen Americas was a well-run, professional conference that highlighted the advancements of the hydrogen sector and related industries. I am grateful to have had the opportunity to highlight the infrastructure and offtake assets in Louisiana that position it as an ideal location for hydrogen development, and I appreciated hearing the perspectives of industry leaders from across the nation and world.

LEO JOHN ARNETT
Policy Advisor
Greater New Orleans, Inc.

EXPLORING HYDROGEN STRATEGIES & PARTNERSHIPS FOR THE AMERICAS

THE SUMMIT

The Hydrogen Americas Summit is renowned for hosting the most senior leaders defining the hydrogen & CCUS industry today. With a speaker lineup packed with key industry leaders and policymakers from across the U.S. and the Americas, the Summit is the platform to address key questions at the highest level and where hydrogen & CCUS developers can grasp the impact of the latest policies to ensure the most effective deployment for successful projects.

The event help senior executives, policymakers, and project leaders to navigate the evolving energy mix by providing exclusive access to high-level discourse, policy updates, and infrastructure strategies that enable energy security and sustainable growth in the Americas.

Meeting many of the participants, there are some new players as well. I met some companies that were looking at industrial decarbonization, one of the companies is looking at offtake and using an AI platform, so I think it has already been successful. Because it is a little bit more intimate there is more opportunity for real discussions and making connections, so I think it has been really positive. It is a good example of bringing the industry together.

MAGGIE FIELD
Western Hydrogen Hubs Manager
Clean Air Task Force

KEY THEMES INCLUDE:

- The next phase of Hydrogen and CCUS development across the Americas continent
- Navigating regulatory uncertainty in the US and abroad
- Infrastructure development Hydrogen and CCUS integration with existing energy systems
- How to meet the growing energy demand of expanding industries
- Maximising hydrogen's and CCUS's benefits for a secure and reliable energy system
- Latest low carbon technology advancements and cost reductions
- Financing and investments to scale up the hydrogen & CCUS industry

INTRODUCING OUR NEW! CCUS AMERICAS SUMMIT & EXHIBITION

THE AMERICAS' HUB DRIVING CCUS PROJECT
DEPLOYMENT AND PARTNERSHIP

Together with Americas' Most Senior Hydrogen & CCUS Event, CCUS Americas provides a interlinked energy platform uniting hydrogen and CCUS under one roof, enabling stakeholders to explore synergies between hydrogen production and carbon management while building on a global network of governments, investors, and industry leaders.

CCUS Americas Summit & Exhibition will serve as the premier global platform for carbon capture, utilisation, and storage. With governments, heavy industry, energy majors, and technology innovators all prioritising CCUS within the energy transformation, this event offers an unmatched opportunity to advance projects, forge partnerships, and accelerate large scale adoption.

TESTIMONIALS FROM ATTENDEES

“

“Hydrogen Americas Summit has been a venue that pulls together thought leaders, those who really care about the industry, care about learning and networking. This year’s summit like all the others is a place with concentration of quality people wanting to understand how to make progress. The programme managers of Hydrogen Americas Summit really take time to understand among all types of conferences what is going to be relevant, what speakers makes sense and put together that intensity and intimacy at the same time. And I think that is a hallmark of Hydrogen Americas Summit.”

FRANK WOLAK

President CEO

FCHEA

“

I was impressed by the event, I learned quite a bit during the sessions which have been very insightful. It’s been a good opportunity for networking, meeting as well with different companies not only from US but from around the world with the majority from North America but a lot of expertise coming as well from Europe from Asia from the rest of the world. So it has been very enriching experience.

AMIR HERMES

New Energy Business Development Manager

SLB

“

“Hydrogen Americas is extremely valuable because it brings together leaders across the hydrogen and fuelcell industry to collaborate and identify new applications, new customer types and really allow us to network and move forward the agenda of decarbonization based on hydrogen fuelcells. So I am a big fan of the event.”

BEN TOBBY

Head of Commercial Strategic Initiatives

Fuelcell Energy

It is a lovely forum. What I liked is it is intimate so I could walk up to a lot of the audience, a lot of the core attendees and had really in depth conversations. We were not talking at the thirty thousand feet, we were really getting to the details of it and really learning from each other on how you solve this scenario and these customers and so on. Understanding what really is taking in various parts of the world because it is also a global thing so we have a lot of good coverage from other parts of the world so learning also from other geographies, other industries so that is where this event becomes so important.

DEBRUP DAS

Head of Renewables

Hitachi Energy

SHOWCASE YOUR HYDROGEN SOLUTIONS TO KEY DECISION MAKERS

THE EXHIBITION

The Hydrogen Americas Exhibition unites leading hydrogen & CCUS stakeholders to meet technology manufacturers, private sector leaders, policy makers and innovators contributing to hydrogen and CCUS's critical implementation. We help hydrogen technology providers, infrastructure developers, and clean energy innovators to showcase their solutions to 1000+ senior decision-makers, including policymakers, investors, and project leaders, by offering a focused marketplace to drive partnerships and accelerate project development.

"It has been great; the event is perfect for what the industry needs. We need to find the opportunities to have face to face, in person conversations and continue building relationships ~~and that is~~ the way these projects are going to get financed and built."

WHY SHOWCASE?

- ✓ Highlight your products and services to buyers and partners
- ✓ A cost and time effective way to discover new business opportunities
- ✓ Position your brand as a leader in the growing hydrogen market
- ✓ Exchange insights and answer your clients' questions instantly
- ✓ Be part of a growing hydrogen community in the region
- ✓ Generate new leads for your company in a highly targeted environment
- ✓ Host meetings and secure business deals right on your stand

THE RIGHT EXPERTISE TO MAKE YOUR HYDROGEN PROJECTS HAPPEN

“ High quality speakers, representatives across the industry and other sectors in the hydrogen ecosystem.

Steve Szymanski
VP
Nel Hydrogen

“ I am really excited to see so many people from so many different areas, different parts of the Hydrogen Landscape whether these are investors, producers, potential offtakers and innovators so I am excited to be here.

Senator Laura Ellman

“ Hydrogen Americas provides the venue to meet some of the world's experts in the area of Hydrogen where I learned about things that sometimes I wasn't even aware of.

Dr Richard Hartman
CIO
Air Force Office of Energy Assurance

“ The Hydrogen Americas event is great. I think there is a lot of people engaged in the future of the energy industry and so I am happy to hear what they are thinking about.

Levi Patterson
Director
Nvidia

“ It gives the opportunity for us to interact with the DOE and other industry colleagues and just network. A lot of projects, a lot of relationships can get started here and take those back to the office and who knows what can happen afterwards.

Makini Byron
Director
Linde

“ It has been great; the event is perfect for what the industry needs. We need to find the opportunities to have face to face, in person conversations and continue building relationships and that is the way these projects are going to get financed and built.

Alejandro Perellon
Head of Americas
Hy24

“ It is really great to network with people to hear different ideas, hear from different parts of the industry, different aspects of it from financing to producers to technology companies as well.

Linda Dempsey
VP
CF Industries
