THE WORLD'S LARGEST & MOST SENIOR HYDROGEN EVENT

THE OFFICIAL WORLD HYDROGEN SUMMIT

The industry's most influential event, **World Hydrogen 2025 Summit & Exhibition** returns to Rotterdam to deliver its largest edition yet!

Brought to you by the Sustainable Energy Council and RX Global, in partnership with the Dutch Government, the Province of South Holland, the City of Rotterdam and the Port of Rotterdam, World Hydrogen 2025 is recognised as the official meeting place where hydrogen deals get done and key partnerships are forged.

2025 marks the midway milestone where progress must be assessed and benchmarked against industry and decarbonisation goals – are we on track? Join 15,000 global industry experts to exchange key insights, build new alliances and sign bold agreements that will kickstart the next wave of hydrogen project developments into the 2030s.

Hydrogen is leading to new partnerships in Europe and every other continent in the world, connecting us and strengthening the relationships that we have. Here in the Netherlands, we have over 10 billion Euros of our National Climate Funding in place to kickstart the hydrogen market.”

#WORLDHYDROGEN2025

THE GLOBAL PLATFORM FOR HYDROGEN POLICIES, STRATEGIES & PROJECT DEVELOPMENT

The World Hydrogen Summit welcomes global Ministers, CEOs and CTOs to tackle the industry's most pressing challenges.

As we move from feasibility studies into the T&Cs, the second half of the decade is set to deliver projects over the line and see the emergence of a global hydrogen trade system. The time for action is now.

From demand creation to infrastructure development, certification to finance and reaching FID, join global leaders at the forefront of hydrogen projects sharing real case studies and strategies to unlock efficiencies and scale, further cementing the bankability of projects.

TOPICS COVERED ACROSS THE SUMMIT

Global Governments Leading the Creation of a Hydrogen Economy

Hydrogen Bankability, Investments, Subsidies

Decarbonising Hard to Abate Sectors Through Low Carbon Hydrogen Applications

Renewable Hydrogen Production

Low Carbon Hydrogen Production with CCUS

Electrolyser Developments

Clean Hydrogen Storage Infrastructure, Transportation & Distribution

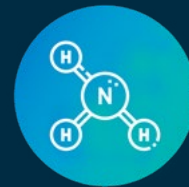

Global Ports Creating Hydrogen Hubs and Demand Centres

Hydrogen Supply Chain Development

Standardisation, Certification & Regulations

Hydrogen Carriers: Ammonia, Methanol, Liquid Hydrogen, LOHC

Hydrogen Mobility Advancements on Land, Sea and Air

“It is a privilege to share India’s journey of energy transition particularly in the hydrogen sector at this wonderful World Hydrogen Summit. We launched our National Green Hydrogen Mission with the goal to put India at the forefront of the worlds production, usage and export of green hydrogen and its derivatives. By 2030 the mission aims to achieve a minimum capacity of 5 Mt of green hydrogen per annum.”
